YES WE CAN! - COMMUNITY WANTS ITS CHURCH.

This community moves to a new level with the news recently that the Tasmanian Diocesan Council of the Anglican Church has accepted the principle that listed churches in its sale plan can exclude their church from sale by contributing 25% of the expected net proceeds of the sale to the Sexual Redress Fund.

In this community, the fund as at publication stands at \$36,000+.

Aligned to the Parish's Redress Fund and acknowledged by the Parish, a community group has established a registered charity to top up the Redress account if it is needed, and further to fund the ongoing conservation and maintenance needs of St Matthias'.

This fund is particularly designed for those who wish to support the presence of the Church in the district and its heritage preservation as a graveyard and worship centre.

www.windermerechurchforever.org

The greater challenge is to sustain a vibrant Christian ministry in this area. This Parish of Holy Trinity Launceston is committed to grow a sustainable Christian ministry in the East Tamar through a contemporary presence based at St Matthias'.

The East Tamar community is now focussing on this as a centre for community events as evidenced by the Harp Concert and forthcoming planned events of a cultural nature. Services at the Church have been well attended over the winter months and it is a great example of how this community can work together to pursue values and activities it defines as important.

In this edition Smoke Signals carries notification of what is planned for community support events over the forthcoming months.

You can support this issue financially or make comment through the following channels:

Financial support for redress:

St Matthias Redress Fund

BSB: 037608

Account: 710640

Financial support for redress and ongoing heritage maintenance:

Windermere Church

(or Windermere Church Forever)

BSB: 632 001

Account Number: 100184708

Events to fundraise for this appeal and ongoing funds to support heritage conservation maintenance are outlined on the Church page, as well as specific fund raising notified within.

GARDENING NEWS

Maureen arranged our Garden Club gathering for June - and from all accounts it was a great way to spend a winter's day! Unfortunately, Greg and I were unable to attend, so Elizabeth File kindly provided the following report. Sorry we missed it!

On Friday 8th June - a very wet and windy day - a group of undaunted Garden Clubbers travelled to Beauty Point. Here we collectively tested the menu at the River Cafe - and were not disappointed in their fare.

After lunch we continued on to York Town - our plan being to walk around the native flora on the designated track. However, on arrival, the wind had become stronger and the rain heavier. We didn't attempt our walk - but we're happy to have sited the locality of where a first attempt was made to

establish a British presence in northern Tasmania (1804). We can keep this very picturesque part of the bush in mind for a future visit.

In spite of the inclement weather, we all enjoyed the excursion and keeping the outdoor spirit of Garden Clubbers alive.

Thank you Maureen and thank you Elizabeth!

There are no gatherings scheduled for July or August. Our next lunch will be Friday, 14th September, 2018.

If you would like to participate in the Garden Club lunches, please give me a call or send me an email. New members are very welcome.

Time to plant Onions for Summer

Salad onions such as the mild flavoured Red Odourless Onion are great for summer salads.

I usually buy seedlings after the month of July and transplant them into a bed that has been finely worked and fertilised with 500 gms of Dynamic Lifter per square metre.

By digging shallow trenches you can lay the onion seedlings in the trench and backfill easily with your fingers.

Water the seedlings in well and regularly fertilise with Seasol during the vegetative growth stage.

Onions rely on a strong vegetative growth stage and then store the nutrition of this in their bulbs before throwing up a seed head in the next season.

When you notice the onions are starting to bulb, stop the water to the plants if you can and allow the tops to die down and fall over.

You can then pull the onions and lay them on top of the bed until they have completely dried on top.

This way they should store well until the winter if you haven't used them.

Beyond Geelong is the Bellarine

Peninsula, which at Queenscliff is the western entrance to Port Phillip Bay. To the east is the Mornington Peninsula which, at Sorrento, forms the eastern entrance to the Bay. Both Peninsulas are popular holiday resorts and boating venues.

The Mornington Peninsula is boot-shaped and separates Port Phillip Bay from Western Port. It has provided Melbourneans with beachside playgrounds since the 1870's. Paddle steamers carried droves of holiday makers from Melbourne to Portsea and Sorrento. The ocean and bay coastline is full of sheltered bay beaches and ocean surfing. Add to this a hinterland with fine scenic views of rolling, vine-clad hills, lush grazing pastures, all within a few hours' drive from Melbourne.

In the middle of Western Port is French Island, which was once a prison farm. Today most of the island is National Park with less than 100 people living on the island.

At the entrance to Western Port is Phillip Island, another very popular holiday destination. In winter the population is approx. 5000 but in the summer this swells to 40,000. The island's main claim to fame is its race track, world renowned surf and sheltered bay beaches and relaxed atmosphere. Phillip Island's Penguin Parade is one of Australia's most popular tourists attractions.

- Tour price is all inclusive, (incl. morning tea and lunch, generally a picnic served in a scenic location). Motel accommodation is usually 3 + Star rating. Dinner is generally enjoyed in the motel's Dining room. Two nights travel on the Spirit of Tasmania in a twin, lower berth cabin.

- Convenient pick-up arrangements will be made before heading to Devonport to board the Spirit of Tasmania

- A deposit of \$350.00 per person with Tour Reservation Form, with the balance due 30 days prior to departure, is required.

- Land Voyages reserves the right to cancel a tour & may require, without notice, to alter itineraries or destinations.

- Cancellation schedule set out on the reverse of the reservation form.

- Tour program may vary from original itinerary

Designed as a fund raising tour to support the retention of this historic and iconic northern Tasmanian church, with a substantial proportion of the tour price being allocated to the appeal fund.

KINDERGARTEN VACANCIES - 2019

Have you thought about
sending your child to
St Finn Barr's?

St Finn Barr's Catholic Primary School at Invermay has vacancies for Kindergarten (and limited other grades) for 2019.

Many students from the East Tamar area attend St Finn Barr's. This area is serviced through a direct bus route each morning and afternoon.

For information about our wonderful school and community please visit our website at www/stfinnbarrs.tas.edu.au or visit our Facebook page - St Finn Barr's Catholic Primary School.

To have arrange a tour of our school or find out more information please phone our office on 6326 3082.

LETTER TO THE EDITOR: *Egg Island Point Hillwood Reserved For Public Use Since C1840*

June 2018

Crown Land Services have further restricted Public Access on the Point by placing 145 limestone boulders to supposedly "address the significant increase of late of illegal wood hooking, (cutting down of a significant number of dead trees) which is occurring at present". The dead trees were, in fact, felled in February 2018 by a CLS contractor!!!. The area has not been tidied up and looks like a war zone.

"Boulder barriers will also reduce the ongoing unauthorised clearing of native vegetation by tractor and slasher. The last grass cutting and slashing was carried out by Justice Dept Corrective Services people at the end of May 2018 using whipper snippers and hand-pushed lawn mowers. They did slightly extend the mowed areas by cutting native grasses and tussocks. Prior to that, the CLS contractor cut all of the grassed areas on the point in December 2017. No significant areas of open grassland of the point have been created by slashing native vegetation. CLS also claim that the boulders were also necessary to prevent the cutting of native vegetation by the Contractor. Surely it is not necessary to use expensive boulders to mark the area to be cut.

Open and lightly wooded areas on the end of Egg Island Point have existed for over 100 years. A significant amount of taxpayers money has been wasted placing the 145 limestone boulders to prevent activities that are either not happening or that they will not prevent.

Two recent statements by CLS should concern all users of the Point. "CLS are the authority for maintenance of the area (Egg Island Point) for its intended

purpose as a natural values area with riparian communities". !!! CLS also state that "Egg Island is no longer considered as an area maintained for use by the general public". CLS provide no facilities on the Point. Why are they trying to restrict people from using and enjoying this wonderful area?

- Lindsay Millar OAM

This letter to the Editor of the Examiner 18/7/2018 adds further support to the battle against the Parks & Wildlife at Hillwood for the proactive management of the Egg Island Point Reserve raised in our March edition.

EGG ISLAND POINT

ON A recent visit to Egg Island Point at Hillwood, I was appalled by the state of it compared to visits of several years ago.

There are rocks scattered around, it is uncared for with overgrown grass, weeds and shrubs, which were not there 20 years ago, and there is excavator damage.

There used to be barbecues built by the Rotary Club of George Town and other amenities, which have been removed.

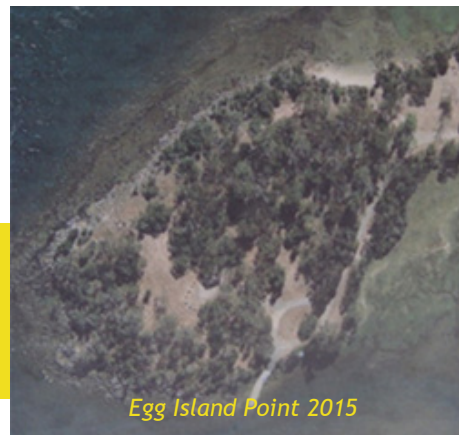

It used to be a delightful place to take the family for a barbecue or picnic while taking in the views of the river and there was a suitable area to play cricket or other games.

This point was designated as a recreation area for the residents of Hillwood and for more than 70 years was used for that purpose, now, under the control of Parks and Wildlife and/or Crown land services it is becoming an eyesore.

John Boyle, Riverside.

Egg Island Point 1992

Egg Island Point 2015

ST MATTHIAS WINDERMERE

HOLY TRINITY LAUNCESTON

Despite the recent time of pervading uncertainty, a wave of hope, energy and positivity has developed throughout the local community, the parishioners, and descendants of pioneer families world-wide.

In the words of our Rector, The Ven. Dane Courtney:

"It has been wonderful to see the broad community support for preserving St Matthias' and we are confident of achieving that outcome. At the same time, it is important to recognise that preserving the site through the present 'crisis' is not exactly the same thing as guaranteeing

its future for all time. The present enthusiasm has shown that people want it to have a future - now we need to follow through on that and ensure it is actively supported as a worship centre and community facility through the years to come."

And this is happening!

Attendances at fortnightly services have more than doubled despite many regulars being away over winter. The many community events organized are being well-supported, and the redress fund total is growing steadily (see Facebook for Direct Transfer bank details.)

For the **harp concert**, we were blessed with 'perfect' weather and a full house. Emma McMahon's music was beautiful; what one imagines angels as playing. The event raised \$1,500 for the St M fund, but the best part was our teamwork before and the joy experienced by all who attended.

For full details, follow our Facebook page '**St Matthias', Windermere**', or regularly check the church noticeboard, or request to be included in StM email network (contact hosfordm@bigpond.net.au to register)

Please support the following events:

S S S Lunch: Soup, Sandwich, Slice (and cuppa), Savour the Home Cooking, Save St M Church. Wed. 22nd August, 12 - 2 pm (stay for a chat), \$10 per head.

Sept. 15: Car Rally, Treasure Hunt and BBQ

Sept. 25: "Songs at Twilight" Opera concert, St Matthias' Church, 5.30pm, \$20 concession \$15

Oct. 19-25: 7 day bus tour to Mornington Peninsula and Geelong. (see advert. P 2).

Oct. 21: Clarinet Choir Concert

Oct. 27: proposed Grounds Working Bee.

Nov. 23/24/25: Celebration of our 175th anniversary. Bush dance, history display, family picnic with colonial children's games, concert and 2 special church services.

Every 2nd and 4th Sundays at 9am: our regular Communion service. Everyone is always welcome.

The Weekly Pewsheets, including readings and notices are published each Friday on our website:

PROCEEDS DONATED TO THE ST MATTHIAS' REDRESS APPEAL

Community members are welcome to participate in an introduction to Nordic Walking to be conducted at The SHED, 308 John Lees Drive, on Wednesday October 24th at 9:am. The session will be run by Harriet Jory of the Royal Flying Doctor Service.

Using Nordic Walking poles combined with the correct technique engages all muscles from head to toe, which makes for a very effective aerobic activity, easier than regular walking and a perfect way to enjoy the great outdoors.

You will need your own walking poles to participate. Entry is by a donation to the RFDS. Poles can be purchased at Outdoor shops or on EBay for as little as \$15 per pair.

ETMS is grateful to TOTAL AIR SUPPLIES Proprietor Arthur Stow, who has donated materials to the value of \$650 to fit out our compressed air supply plant. This integrated system allows air tools to be used from many points within the SHED. It will be completed within the next week or so.

Several other pieces of equipment, purchased with Grant money successfully sought from The Australian Mens' Shed Association have been installed, and will allow tool sharpening, sand blasting, grinding, and safe entry and exit for materials to the table saw. A sheet metal folding machine has been fitted and trialled. AMSA grants are accessible by all Men's Sheds around Australia and are funded by the Federal Government.

An extra room adjoining the SHED has been fitted with our dust extraction system and compressor. This is now functional and will limit the wood dust within the SHED.

An untimely delay in the installation of 3 phase power has stalled the use of a metal lathe and a mechanical hacksaw.

EAST TAMAR MENS SHED

Dilston Fire Brigade

Tasmania Fire Service

Register the fire by calling freecall 1800 000 699

By telling the Tasmania Fire Service about your fire you may help prevent false alarms.

Wood Heaters | Chimneys and Flues

In a similar trend to 2017, Tasmania Fire Service brigades around the state have been responding to wood heater related fire incidents, in many cases involving the chimney or flue as it exits through the ceiling and roof cavities. Dilston Fire Brigade have been requested to attend a number of properties to give advice on condition and installation of flues, and have noted some installations that are in need of maintenance.

Our advice to all residents is first and foremost to ensure that their heater and flu installation has been done by an accredited installer; or if you have concerns over the condition of an existing installation to seek advice from some accredited people. Yellow Pages will point you in the direction of a number of businesses in Launceston that can provide this service.

We also advise that you ensure your flue is cleaned

prior to being used in the colder months. The build up of soot and creosote is the major cause of chimney and flue fires, and can in worst case lead to surrounding roofing materials catching fire.

The moisture content of the fire wood you are burning will have a major effect on the rate of build up of soot and creosote in the flue. It is found that many people try to burn wood that is too wet. The ideal moisture content range for fire wood is between 13 and 18%. Anything over 20% will increase the build up in your chimney flue, and can be seen as a tar like substance.

How do you tell we hear you asking?!

Try to ensure your firewood has been allowed to dry for

an extended period of time; i.e. don't use wood that has been freshly cut up! If buying in ask the supplier how long the wood has been drying for.

Furthermore we recommend you obtain a moisture meter in order to be sure. They can be purchased online for under \$20 and are a cheap investment in maintaining the "health" of your wood heater and chimney/flue. As always, we are more than happy to provide advice and point you in the right direction!

Tasmania Fire Service

Home Fire Safety

FACT SHEET

Fire extinguishers & fire blankets

REMEMBER – Saving lives through a quick escape is far more important than saving property.

You should be trained in the use of an extinguisher or fire blanket to use them safely and effectively.

An emergency is not the time to read instructions.

If you do not know how to use a fire extinguisher or fire blanket:

- 1. Get down, get low, get out** – smoke is poisonous, get underneath it on your hands and knees, and crawl to the nearest safe exit.
- 2.** Shut the doors behind you to stop the spread of fire.
- 3.** Shout **Fire! Fire! Fire!** to warn others.
- 4.** Ensure **everyone is out** of the building.
- 5. Get out and stay out** – **never go back inside.**
- 6.** Go to your **safe meeting place** – such as your letterbox.
- 7.** Call **triple zero '000'** from a mobile or a neighbour's phone.
- 8. Wait for the Fire Service to arrive.**

LINDSAY MILLAR had a nice write-up in Sunday Examiner 8th July regarding his involvement with the ROYAL FLYING DOCTOR SERVICE. Lindsay retired after more than 60 years involvement but is still fully involved although no longer on the committee.

Lindsay is also passionate about Hillwood and is at present negotiating, through the HILLWOOD PROGRESS ASSOCIATION INC as the PROJECT MANAGER, for local involvement in the management of EGG ISLAND POINT RESERVE. Lindsay, as you might remember, was the prime mover behind the restoration of the little beach at the Point.

MAST have now removed the well -used Low-tide ramp at Craighburn on the grounds that it was unsafe. Crown Lands and Parks have also closed the access to launch over the shore on the Western side of Egg Island Point with no reason, prior notice or consultation. This access has been in continuous use for over 50 years.

If the Egg Island Point ramp is unusable due to strong South East winds or tide, there is now no available access to launch a boat from a trailer, if needed for a rescue or retrieval, between George Town and Windermere on the East Tamar.

This is not an acceptable situation and places live at risk in a dangerous area of the river.

Lindsay's second report is to advise of a **NEW AREA AT HILLWOOD NOW AVAILABLE FOR PUBLIC USE.**

The Hillwood Progress Association Inc have been successful in lobbying George Town Council to lease the area of open grassed Crown Land bounded by Craighburn Road, Hillwood Jetty Road and Egg Island Creek.

The area is now open for Public Use e.g. Horse Riding, Dog Walking, Bike Riding or just as a walking track. An area could be easily fenced off to create an off-lead dog-exercise area.

Current access is off Craighburn Road, east of Ridge street. When funds are available, a new entrance will be constructed. No 4WD or Trail Bikes, please.

ROBBIE AND GERALDINE DONALDSON enlivened the June meeting of HILLWOOD GARDEN CLUB with tales and photographs of their recent trip to India. A fascinating trip enjoyed by all (except yours truly, who intended to go but fell asleep!) Sorry.

WELL DONE, SALLY YOUNG for the great job you are doing with the canteen for the HILLWOOD FOOTBALL CLUB. Sally took on this difficult job after Kaye McLean retired. Sally has a great band of happy helpers for which we are always thankful. **A special mention also to JEAN and DAVID** who stepped up to supply teas on Thursday nights at the beginning of the season and a big Thank You to all of the lovely helpers who are continuing this service.

YOUNG ACHIEVERS:

SHELBY MILLER daughter of Kim and Todd Miller, has returned to Hillwood and is now playing for the Cavaliers in the State League.

CHE' HAINES, son of Michelle Isaac together with Angus Jeffries son of Eliza and Dick Jeffries competed in under-16 football on the Gold Coast with a nice win.

SEAN HAWES, son of Jackie and Jason Hawes of The Glen played in under-13 soccer in Canberra. The team won Best and Fairest for their age group.

MYRA DONNELLY has been chosen as a team leader for the School Sports Australia swimming championships being held in Hobart this year. This is Myra's fourth Pacific School Games competition.

STEAMPUNK FESTIVAL at George Town 18th August 2018 will be held again at the old Skellerup Building on the corner of Mt George Road and the East Tamar Highway. This is a wonderful event. I attended last year and loved it. It starts at 11.00 am - at 2.30 pm the grand fashion parade will be judged and dancing begins at 5.30 pm.

Steampunk has nothing to do with punk as we know it but relates to the steam era plus clothing from the Victorian era and Wild West. There were plenty of stalls (food and wine etc) and interesting steam machinery. If you would like to dress up you can see the fashions by

googling steampunk. Even if you only wear goggles, you will feel part of the party but it is fun to dress up.

CHANGE IN RECYCLING PICK UP DAY IN HILLWOOD. Pickup of Recycling in Hillwood is changing to every second Thursday as from Thursday August 9th. George Town Council website <https://georgetown.tas.gov.au> will have additional mapping and information.

TOILETS AT HILLWOOD HALL: By the time you receive this Newsletter, the upgrade of the toilets at the Hall should be completed with disability access.

HILLWOOD PROGRESS ASSOCIATION INC AGM will be held in October. We need people to join (\$5 membership) and come along to learn what we do as we will need replacements for some of the older members eventually. The Progress Association works with Council to look after the Hall and improve areas for recreation. Council are upgrading the toilets at the Hall at HPA's request and have an allocation in Council budget for Acoustics in the Hall. HPA restored the little beach, is working with MAST to provide an All-Tide Boat Ramp, is working towards a Foreshore Walking Track, has gained permission to use Crown Land for recreation and is working towards restoring recreational use at Egg Island Reserve. It is a worthwhile organisation that needs to keep going.

HILLWOOD FOOTBALL CLUB are looking for a person or group who would be prepared to provide Community meals at the Clubrooms every second Friday from November through to February/March. Contact: Grant Radford 0400430611 email ga.radford@bigppond.com

BIRDS OF THE TAMAR

Tasmanian Wedge-tailed Eagle (*Aquila Audax Fleayi*)

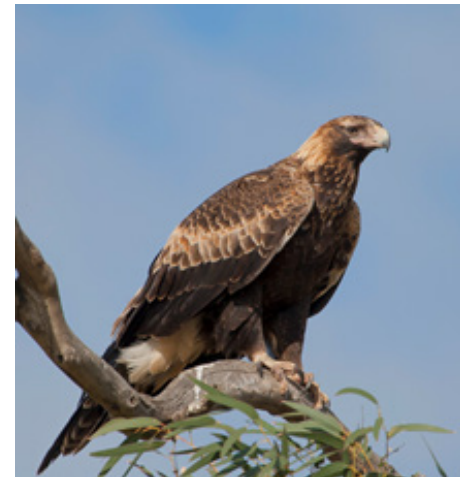

The Wedge-tailed Eagle subspecies *Aquila audax fleayi* occurs only in Tasmania, and is distinguished by its size (being Australia's largest bird of prey) and wedge-shaped tail. It kills and scavenges on animals including reptiles, birds and mammals, across a wide range of habitats, from the coast to highland areas. It defends a large territory, nesting in patches of mature forests with sheltered aspects throughout Tasmania (including large offshore islands). The total adult population has been estimated as less than 1000 birds. Principal threats include loss of nesting habitat, nest disturbance, collisions (with artificial structures, vehicles and aircraft), electrocution and persecution. While individual responses vary, disturbance occurring even many hundreds of metres away can cause breeding birds to temporarily leave eggs or chicks at risk, or even to desert their nest site for years. Disturbances involving visible people or helicopters can be particularly serious. Population numbers may increase if nest protection is more effective and unnatural mortality rates reduced.

The majority of Wedge-tailed Eagle breeding activity typically occurs between August and January, but this varies between eagle pairs and from year to year. The breeding season includes the highly sensitive courting period, when birds are at or near the nest assessing levels of disturbance and nest suitability just prior to laying; this courting period most often occurs in July, but may begin with nest lining in June. In some years chicks will not fledge until as late as March, with disturbance prior to this event potentially causing young birds to attempt to fly before they are fully fledged.

Rob Sharman of Dilston reports a most unusual sighting recently of 4 Wedge-tailed eagles together in the mature eucalpt opposite the Windermere Café. I would think that at this time of the year it would be most likely courting behaviour and bonding activity of these birds prior to mating. These birds are often seen in flight over Gaunt Hill, and there is an established nesting site in the Native Point Reserve. Parks and Wildlife

Officer Nick Mooney suggests that this nesting site is known to be used by both Wedge-tailed Eagles and White-bellied sea-eagle in different years. It is known that eagles can use the same nesting site for up to 50 years. These birds have a potential life-span of about 20 years, so it is most likely an established family territory.

Photo: Alan Fletcher

COLLECTING INFORMATION

A new roadkill app is being trialled in Tasmania, allowing people to report roadkill sightings so that hotspots can be determined.

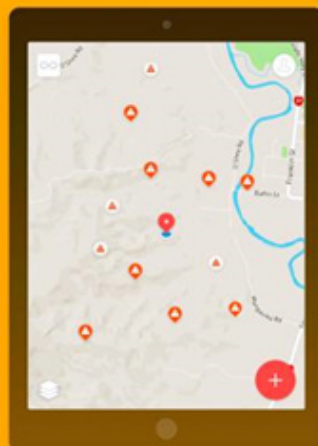

A donation from a zoo in North America has facilitated the development of a new Tasmanian smartphone app for reporting roadkill sightings.

The Roadkill Tas app, which is free to download, is designed to make it easier for Tasmanians to report roadkill, using GPS to enable people to record the precise location of any sightings.

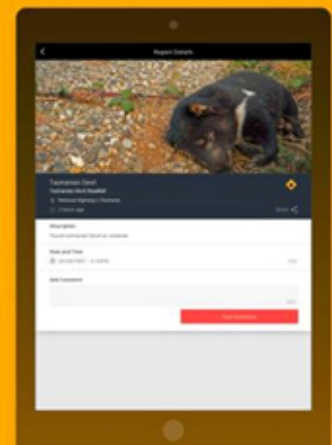

It was made possible through a \$20,000 donation from the Tasmanian Devil Ambassador Program at Fort Wayne Children's Zoo in Indiana in the United States.

The app was developed by New Zealand-based company Thundermaps and will be trialled for two years.
